

Ayoub Benhamouche

Product Designer | UI/UX | Fintech & SaaS | Arabic–English–French | RTL/LTR

benhamouche.ayoub11@gmail.com | LinkedIn | Portfolio | Behance | Annaba, Algeria | Open to Relocation

SUMMARY

Product Designer with 5+ years of experience across SaaS, fintech, banking, and government systems. End-to-end UX ownership across product flows including research, information architecture, UI systems, and production-ready delivery. Specialized in Arabic RTL and bilingual product design for complex, regulated environments. Experience working with international and GCC-based clients across freelance and studio engagements.

EXPERIENCE

Product Designer — Persoluxe (SaaS Product)

Sep 2025 – Mar 2026

- Designed and shipped features for a SaaS platform with 5,000+ active users
- Owned end-to-end UX delivery across core product flows from discovery to developer handoff
- Built a modular Figma design system ensuring consistency across the product
- Improved onboarding flow and task completion through iterative UX improvements
- Worked in Agile sprints with product managers and engineers

Founder / Product Designer — Seyru Studio (Design Consultancy)

Jun 2024 – Sep 2025

- Led end-to-end product design for SaaS and fintech clients
- Built scalable design systems and reusable UI architecture across projects
- Translated business requirements into structured user flows and interfaces
- Delivered production-ready designs reducing development ambiguity and rework
- Worked with international and GCC-based clients across multiple engagements

UI/UX Designer — Freelance / Contract (Fintech, Banking, Government)

Jan 2021 – Present

- Designed digital banking and internal systems for large financial institutions (NDA)
- Worked on onboarding, account management, and compliance dashboard systems
- Improved user workflows and activation through UX restructuring
- Specialized in Arabic RTL and bilingual UI systems (Arabic–English)
- Delivered 30+ digital products across fintech, SaaS, and government sectors
- Collaborated with GCC-based clients on product design engagements
